Python (NumPy, Pandas,  
scikit-learn, NLTK),  
Excel (adv. functions,  
pivot tables), R

### Development

HTML, CSS (Sass),  
JavaScript (node.js,  
React)

## Experience

### Daily Bruin Graphics Editor | May 2020-present

- Manages the hiring, training, and personnel of Graphics department of the Daily Bruin, a newspaper with an audience of over 45,000 students and staff.
- Discover, analyze, and refine researched data sets using Python, Excel, or R to uncover unique storylines
- Visualizes findings in insightful graphs and diagrams, both static and interactive, with a uniquely aesthetic flair.
- Spearhead a digital-first campaign in the newsroom to increase reader engagement by producing interactive design

### UCLA Undergraduate Admission Campus Tour Guide | Dec. 2019-present

- Selectively chosen as one of 40 students from a pool of 300+ applicants to officially represent the university, serving the nation's largest applicant pool of over 115,000 students.
- Conduct 2-3 hour individualized, walking tours of the UCLA campus to prospective students, high school and community college groups, special guests, and the general public presenting the university's history, academics, and campus life

### Westside Dental Assoc. Office Technology Assist | June 2019- Aug. 2019

- Coordinated transition and integration of paperless charts and forms into dental practice's existing infrastructure.
- Created new online patient forms, consent forms, and IT infrastructure to aid in transition

## Awards

SPJ Data Visualization award for Region 11 | 2019
